

TOWN OF BRUNO			
Policy # 03/2016	Shipping Containers Within the Town Boundaries	Date: 2016	
Date of resolution and coming into force: 19th September		Resolution # 243/2016	
		Amendments	0

PURPOSE

This policy is intended to enable the Town of Bruno (municipality) to regulate the placement of shipping containers located within The Town of Bruno.

DEFINITION

Shipping containers are defined as reusable transport and storage units specifically constructed for the transport of goods by rail, ship or transport truck. Shipping container may also take the form of the body of a transport trailer, body of a straight truck, or prefabricated metal storage units. See *Appendix A*.

REGULATIONS

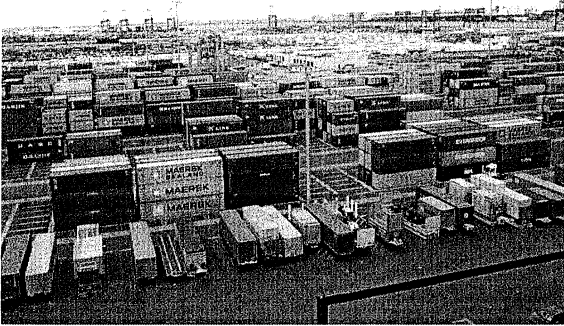

Shipping containers are meant to be used as temporary storage sites, usually utilized for storage of supplies during a construction period. All storage containers as such must have a valid building permit. Any container placed on a property in excess of thirty (30) days will become taxable on the owners property assessment. Only one container will be allowed per property.

The shipping container shall:

- Not be placed on a public right-of-way or dedicated lands.
- Not to be placed in a front yard.
- Be located a minimum of 1.2 meters from a side property line.
- Be located a minimum of 1.5 meters from back alley property line.
- Be located so as not to create a safety hazard or block traffic sight lines
- Be painted an appropriate color and kept in good condition as to not be deemed unsightly.
- Not be placed until an approved Building permit is obtained.

This policy is subject to changes and amendments when required.
