ANNOUNCEMENTS

As the weather gets warmer we all want to enjoy it, animals included. Everyone enjoys going for a regular walk, especially our four legged friends. Please remember to keep your animals on a leash at all times and to clean up after your animal. Did you know that your dogs poop can transmit diseases to other dogs and humans. No to mention it's required by our Town's Bylaw and subject to fines! Let's all do our part and keep our Town looking, and smelling good!

Town of Bruno Council would like to suggest that your walking route does not include Grid Road. Due to the narrow road and high amount of traffic it can pose a potentially dangerous situation. Always remember to wear bright or reflective clothing in the evening or early morning, this helps motorists easily spot you.

The Town of Bruno now accepts personal etransfers for bulk water and residential water account payments as well as tax account payments. We are set up for auto deposit, so a password is no longer required. Be sure to specify what your payment is for (tax or water) when you initiate the transfer.

All etransfers must be sent to admin@brunosaskatchewan.com

We will continue to accept debit card in the Office, as well as cash and cheque payments. Electronic Bill payments may also be available through you online banking system.

Bruno Bowling Alley is open for personal bookings of families from the same household of 8 or less. Please contact the Town Office for more information 306-369-2514.

The metal donation pile is open! The proceeds from the 2021 donations will be going toward the Bruno Golf Club!

- **No Batteries**
- **No Tires**
- **Only Metal**

Please note that use of this area is **at your own risk**. Please watch for sharp objects, the Town of Bruno takes no responsibility for damages to property or persons.

SECONDLY: to the parishioners inside the church.

Please remember to wear your mask for communion, even if you are outside in the line-up, and please follow the social distancing guidelines for all situations.

We thank you for your co-operation. We all need to be diligent for a little while longer. Hopefully we all will have gained a stronger sense of community, and appreciation for the sacrifices we are all making to keep each other safe and healthy. Because the directives are changing constantly, we will be making announcements as changes occur.

THANK YOU TO OUR ST. BRUNO PARISH VOLUNTEERS!

To all of you who continue to serve our parish community with the liturgical ministries, decorating, maintenance, and other tasks behind the scenes, we are very grateful for your time and dedication.

Blessings to all the wonderful mothers out there!
Have a
HAPPY MOTHER'S DAY!

What are we doing?

Every year, as part of our proactive safety and natural gas system integrity program, SaskEnergy routinely performs a variety of safety tests and inspections throughout the province.

This includes:

-  **Surveying** for natural gas leaks.
-  **Visually inspecting** utility easements.
-  **Testing** cathodic protection systems.

Why inspect?

These tests and inspections allow us to provide safe, reliable service to our customers, and to meet strict regulatory requirements. We use a variety of techniques that can include vehicle-mounted equipment and hand-held devices. These highly sensitive instruments are designed to detect natural gas and are used to survey above and below ground infrastructure.

There is currently no notification to customers about these inspections due to variabilities of the survey, which can include:

- **Weather conditions**
- **Crop maturity**
- **Work force availability**
- **Changing risk levels**

open

For your safety, Mercaptan, an odourant, is added to the natural gas in SaskEnergy's distribution system, making it easier to smell and detect.

If you suspect the smell of natural gas, please leave the area immediately and call SaskEnergy's 24 hour emergency service line at **1-888-7000-GAS (427)**.

If you require more information, or have any questions, please contact us at 1-800-567-8899, or at saskenergy.com.

We're inspecting natural gas lines.

What does that mean for you?

1

Testing the natural gas lines on your property.

SaskEnergy inspects approximately 20,000 kilometers of natural gas lines annually to detect natural gas leaks and inspect utility easements. We also inspect the anti-corrosion system called cathodic protection for about 80,000 services every year. Cathodic protection is applied to the below-ground portion of the steel gas line leading to your property and does not directly affect natural gas service.

Customer support and co-operation for this safety initiative is appreciated.

**2**

Who will be doing the testing?

Surveying and testing will be completed by SaskEnergy, or a qualified Field Representative who has been contracted to complete this work on our behalf. Field Representatives will carry identification indicating they work for, or on behalf, of SaskEnergy.

**3**

There is no need for concern.

Inspections occur year round at least once every 5 years, and are a part of SaskEnergy's planned, preventative maintenance program. If any repairs or additional work is required as a result of an inspection, SaskEnergy personnel will promptly resolve the issue or be in contact with you as required.

**4**

What if you're not a customer?

Even if you are not a SaskEnergy customer, you may still have a utility easement or natural gas line on your property that delivers service to a neighbouring property. Identifying who is a customer can be a challenge for a Field Representative.

We continue to improve our processes and technology so we can try to alleviate this issue in the future.

Town of Bruno SUMMER STUDENT EMPLOYMENT
