TOWN OF BRUNO

NOTES TO THE SUMMARIZED FINANCIAL STATEMENTS

December 31, 2021

1. SUMMARY FINANCIAL STATEMENTS

The summary financial statements are derived from the audited financial statements, prepared in accordance with Canadian public sector accounting standards as at December 31, 2021 and December 31, 2020, and for the years then ended.

The preparation of these summary financial statements requires management to determine the information that needs to be reflected in them so that they are consistent in all material respects with, or represent a fair summary of, the audited financial statements.

Management prepared these summary financial statements using the following criteria:

- a) the summary financial statements include a statement for each statement included in the audited financial statements;
- b) information in the summary financial statements agrees with the related information in the related audited financial statements;
- c) major subtotals, totals and comparative information from the audited financial statements are included; and
- d) the summary financial statements contain the information from the audited financial statements dealing with matters that have a pervasive or otherwise significant effect on the summarized financial statements.

The audited financial statements of Town of Bruno are available upon request by contacting the Town.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements consolidate the assets, liabilities and flow of resources of the Town. The entity is comprised of all organizations owned or controlled by the Town and are, therefore, accountable to the Council for the administration of their financial affairs and resources.

The financial statements are prepared using the accrual basis of accounting using the accounting policies that are described in Note 1 to the Town's audited financial statements in accordance with the local government accounting standards established by the Public Sector Accounting Board. The accrual basis of accounting recognizes revenues as they become available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods and services and the creation of a legal obligation to pay.

The preparation of the financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenditures during the period. Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. The measurement of materials and supplies are based on estimates of volume and quality. The 'Opening asset costs' of tangible capital assets have been estimated where actual costs were not available. Amortization is based on the estimated useful lives of tangible capital assets. These estimates and assumptions are reviewed periodically and as adjustments become necessary, they are reported in earnings in the period in which they become known.
